		Comment. This shipment was reported previously
25X1	- 93-	The present report
25X1		again indicates that ammunition shipments from the U.S.S.R. to East Germany are at present at an unusually low level, the same observation was also made at the East German border crossing stations.
25X1	*	
25X1		Comment. Previously only captured German ammunition was stored in the ammunition depot in Mockrehna. Prior to mid-November 1952, this installation played only a minor role in Soviet supply traffic,
25X1		but sizable ammunition shipments from the U.S.S.R. suddenly began to arrive there after this date.
25X1 25X1		The Yockrehna ammunition depot was also served by Toepchin. It is believed that a total of about 2,000 tons of Seviet ammunition arrived at the depot prior to
25X1	_	late November.
,		Comment. The dispatch of this shipment to Dannenwalde was
25X1		reported previously,
